8. Report

Mr. Magnus Hammar made a brief retrospective on the IUT activities 1998-2000.

Mr Hammar noticed the absence and lack of communication with the Italian and Belgian member organisations.

On the Italian matter Mr. Marijan Babić of Udruga Stanara Hrvatske, Croatia, reported of an initiative made by the Catalan tenant organisation to form a separate international tenant organisation. Mr. Babić suggested that the Board should contact the Catalan tenant organisation.

Mr. Jaquay Tiset of Confédération Nationale du Logement reported on his organisation's activities in Nice at the EU summit in the fall of 2000. Mr Tiset reported that, among other things, the purpose of the Nice summit was to adopt a European Charter for Human Rights and called for the other member organisations and the IUT to participate in the future work with the European Charter of Fundamental Rights.

Mr Tiset also proposed that the French version of the Global Tenant should be introduced on the IUT website.

Mr. Franz Rips of the Deutscher Mieterbund e V expressed his gratitude for the work done by the resigning Chairman of the IUT Mr. Jan Dannemann. Also Mr Rips expressed his gratitude to the Mr. Nic Nilsson, former Secretary General of the IUT, and also of the former IUT Assistant Secretary Ms. Ulla Hildén.

Mr. Pierre G. Enagnon of the Association Solidarité Defense Droits des Locataires, declared his opinion, that the IUT should be an organisation for tenants only and not for homeowners. He suggested further that the IUT should supply the Tenant Charter with an explanatory text and that the IUT should report on statements made and decisions taken part in by the governments of the respective member organisations.

Mr Magnus Hammar gave an explanation why the IUT also accepts homeowner organisations from the transition countries of Eastern Europe. Mr Hammar said that the situation in the present Eastern Europe is somewhat undergoing dramatic changes, due to restitution and, more or less, involuntarily privatisation of flats.

Secretary General Mr Hammar reported on the financial results of the period 1998-2000.

Mr Hammar corrected some mistakes, in SEK (Swedish crowns), in the report:

1. Total costs in 1998 was wrongly announced as 525 258 SEK. The correct figure was to be 560 225 SEK.
2. Result for 1998 was to be -50 225 SEK, and not -15 258 SEK.
3. Result for 1999 was to be -8 613 SEK, and not - 10 613.

Mr Hammar also explained that the difference in incoming membership fees from 1999 to 2000 was due to the lower contribution of CNL.

The Congress decided to adopt the financial report.

9b. The auditor's report

The Congress decided to adopt the auditor's report for the years 1998 and 1999. The auditor's report for the year 2000 could not be presented due to the fact that the auditors will audit the financial report for 2000 in March 2001.

11. Renewal of the Tenant Charter

Mr. Magnus Hammar presented a draft for a new Tenants Charter (appendix 3).

Ms. Mária van Veen of Nederlandse Woonbond suggested that the Charter should focus on the future of the rental sector and social housing with separate sections covering goals for tenant activities in Africa and Europe.

Mr Stanislav Krecek, of Sdružení Nájemníků ČR, SON, noted that several international declarations had been adopted with little effect. To be efficient the Tenant Charter must be transformed into the national law.

Mr. Ephraim Buriituza, of Uganda National Tenant Union, approved the proposal for a separate section for Africa, but stated his opinion that the principles should be general.

Mr. Pierre Enagnon, of ASDDL, proposed that each member organisation should work out a draft charter that should be compiled by a committee consisting of Africans and Europeans and judicially professional persons.

F-G Rips approved to the beginning of the draft Charter. Mr Rips also said it must include a paragraph about affordable rents and a paragraph on the legal rights for the protection of tenants.

He also put forward that the document did not enough underlined the importance of the independence of tenant organisations.

Another question of importance is the role of the market in the rental housing sector. Mr Rip's opinion was that the draft Charter aims at the control of the market forces. The draft Charter also states that tenant organisation should be given the right to negotiate for the tenant. This, however is something the German tenant organisation is not interested in. Still, Mr. Rips said, the member organisations have a common goal – the differences are on the means. Therefore the Tenant Charter must be an open document.

Decision:

The Board of Directors shall till the 1st of May 2001 work out a draft proposal to a Tenant's Charter that should be sent to each individual member organisations of the IUT to be taken under consideration. Their views on the draft shall be submitted to the Secretariat before the Board meeting in November 2001.

In the Netherlands there has been rent hikes in spite of a low inflation like in many other countries. The government has announced that it intends to sell out more than 500 000 apartments. Mr. Gaastra also reported that his organisation now has more than 600 000 members.
